

The grass is greener on the other side of the hill.

And so's the money!

Tired of fighting skyrocketing housing costs, expensive real estate, congestion and restrictive regulations?

Just look over the hill, to the Coachella Valley Enterprise Zone, and you'll find one of the fastest growing regions in the state with all you need to help your business compete. Truly affordable housing and plenty of inexpensive land.

If that's not green enough, consider the world-class lifestyle benefits of the Palm Springs Desert Resorts area.

And it even gets greener - when you locate in the Coachella Valley Enterprise Zone you can save tens of thousands of dollars, just like cash back from the government, on hiring, equipment purchases and more with no red tape, just green lights.

Give us a call and we'll show how green is our valley.

"I saved \$134,000 last year with Enterprise Zone Hiring Credits and reinvested it in our new 50,000 sq. ft. facility."
